DELIS PRODUCTS, through its reliable bedding line based on cotton fiber, sells one of the most successful fitted sheets in the market. Now, it creates a new article with a higher level of demand in terms of quality and finishing and launches NATURCOTTON®, made with 100% ORGANIC COTTON YARN.

This line is framed in a Premium category and it's a fitted sheet, knitted in cotton selected from the best harvests of these millenary plants and not treated with bleach, pigments or dyes, so it keeps intact the natural colour of cotton.

The result is outstanding. Very silky and pleasant sheets to the touch. Wrapping, waterproof and breathable. In addition, with NATURCOTTON® we achieve optimal heat regulation. It is a fresh fiber in summer and extremely warm in the cold seasons of the year.

WATERPROOF AND BREATHABLE

The revolutionary PERLAM® system consists of an intelligent membrane which quickly refuses the liquids and expulses them to the outside, keeping the skin always dry. At the same time, it allows the skin to breathe through the fabric, creating a pleasant environment that contributes to rest.

PERLAM® is a registered trademark, the technology of which is only granted, under license, to the best textile firms.

100% ORGANIC COTTON YARN

Product Knitted with 100% ORGANIC COTTON yarn. Organic cotton is grown without the use of pesticides and substances harmful to the environment. The choice of organic products is an active contribution to the protection of the planet

VIRGIN COTTON AS NOT CHEMICALLY TREATED, SHRINKS NATURALLY:
WASH BEFORE USE FOR A PERFECT FITTING.
